USPEW2016-01POL

Country: United States
Title: Pew Research Center: January 2016 Political Survey
Survey organization: Abt SRBI
Sponsor: Pew Research Center
Field dates: January 7-14, 2016
Sample: National adult
Sample size: 2,009
Sample note: This study contains sampling using landline telephones and cellular phones. Use SAMPLE in columns 7-12, where 1=landline and 2=cellular. There are 2 forms for this study located in column 56. Form 1=1, Form 2=2.
Interview method: Telephone (both Landline and Cell)
Weight location: Columns 237-247 (x.xxxxxxx), Varname: WEIGHT
No. of records per respondent: 1
Usage notes:

Please note that data provided by the Roper Center for Public Opinion Research may not be disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

METHODOLOGY

I. SUMMARY

The January 2016 Political Survey, fielded for the Pew Research Center for the People & the Press by Abt SRBI, obtained telephone interviews with a representative sample of 2,009 adults living in the United States (504 respondents were interviewed on a landline telephone and 1,505 were interviewed on a cell phone). Interviewing was conducted from January 7th to 14th, 2016 in English and Spanish. Samples were drawn from both the landline and cell phone RDD frames. Persons with residential landlines were not screened out of the cell phone sample. Both the landline and cell phone samples were provided by Survey Sampling International. The combined sample is weighted to match demographic parameters from the American Community Survey and telephone status parameters from the National Health Interview Survey. The weighting procedure also accounts for the fact that respondents with both a landline and cell phone had a greater probability of selection. The margin of sampling error for weighted estimates based on the full sample is ± 2.46 percentage points.

II. SAMPLE DESIGN

The target population for the study is non-institutionalized persons age 18 and over, living in the US. Samples were drawn from both the landline and cellular random digit dial (RDD) frames to represent people with access to either a landline or cell phone. Both samples were provided by Survey Sampling International, LLC according to Abt SRBI specifications.

Numbers for the landline sample were drawn with equal probabilities from active blocks (area code + exchange + two-digit block number) that contained one or more residential directory listings. The cellular sample was drawn by Survey Sampling International through a systematic sampling from 1000-blocks dedicated to cellular service according to the Telcordia database.

III. QUESTIONNAIRE DEVELOPMENT AND TESTING

The questionnaire was developed by the Pew Research Center in consultation with Abt SRBI. In order to improve the quality of the data, the questionnaire was pretested with a small number of respondents using landline RDD telephone numbers. The pretest interviews were conducted using experienced interviewers who could best judge the quality of the answers given and the degree to which respondents understood the questions. Some final changes were made to the questionnaire based on the monitored pretest interviews.

IV. CALLING PROTOCOL

Landline numbers were called as many as 7 times, and cell phone numbers were called as many as 7 times. Refusal conversion was attempted on soft refusal cases. Interviews were conducted from January 7-14, 2016. Calls were staggered over times of day and days of the week to maximize the chance of making contact with potential respondents. Each number received at least one daytime call. The sample was released for interviewing in replicates, which are representative subsamples of the larger sample. Using replicates to control the release of sample ensures that complete call procedures are followed for the entire sample.

For the landline sample, interviewers asked to speak with either the youngest male or youngest female at home right now. For the cell sample, interviews were conducted with the person who answered the phone. Interviewers verified that the person was an adult and in a safe place before administering the survey. Cell sample respondents were offered a post-paid cash incentive of \$5 for their participation.

V. WEIGHTING

Two weights were created for this survey. The specification for each weight follows the Pew People-Press Weighting Summary (Christian, Best and Kennedy, January 2016). The design of the full sample weight recommended for analysis is described first. Description of the other weight is provided at the end of this section.

First Stage Weighting

The first stage of weighting corrected for different probabilities of selection associated with the number of adults in the household and the respondent's telephone usage (landline only, cell phone only or has both kinds of phones). This weighting also adjusts for the overlapping landline and cell sample frames and the relative sizes of each frame and each sample.

This first-stage weight, labeled NEWWT1, can be expressed as:

$$WT = \frac{1}{\left(\frac{S_{ll}}{U_{ll}} \times \frac{LL}{AD}\right) + \left(\frac{S_{cp}}{U_{cp}} \times CP\right) - \left(\frac{S_{ll}}{U_{ll}} \times \frac{LL}{AD} \times \frac{S_{cp}}{U_{cp}} \times CP\right)}$$

Where:

- LL =1 if respondent has a landline phone
=0 if respondent has no landline phone
(OR number of landlines on which the respondent could have been reached)
- CP =1 if respondent has a cell phone
=0 if respondent has no cell phone
(OR number of cell phones on which the respondent could have been reached)

S_{ll} =size of the landline sample drawn across all released replicates (# of landline numbers dialed)
 S_{cp} =size of the cell phone sample drawn across all released replicates (# of cell phone numbers dialed)
 U_{ll} =size of the landline RDD frame (according to SSI)
 U_{cp} =size of the cell RDD frame (according to SSI)
 AD =number of adults in the household (1, 2, 3 or more)

Second Stage Weighting

The second stage of weighting balances sample demographics to estimated population parameters. The sample is balanced to match national population parameters for sex, age, education, race, Hispanic origin, region (U.S. Census definitions), population density, and telephone usage. The Hispanic origin was broken out based on nativity: U.S. born and non-U.S. born. The white, non-Hispanic subgroup is also balanced on age, education and region. The basic weighting parameters came from an analysis of the Census Bureau's 2014 American Community Survey (ACS) one-year estimates. The ACS parameters were calculated for adults aged 18 years and older residing in households, excluding those living in institutionalized group quarters. The population density parameter was derived from Census 2010 data. The telephone usage parameter came from an analysis of the January-June 2015 National Health Interview Survey¹ and was based on all adults living in households with a phone (either landline or cell phone) in the U.S., including Alaska and Hawaii.

The second stage weighting uses an iterative technique that simultaneously balances the distributions of all weighting parameters. This process was performed separately for each questionnaire form. Weights were trimmed at the 5th and 95th percentiles to prevent individual interviews from having too much influence on the final results. The use of these weights in statistical analysis ensures that the demographic characteristics of the sample closely approximate the demographic characteristics of the national population. In the survey dataset, this full sample weight is labeled *WEIGHT*. Table 1 compares weighted and unweighted sample distributions to population parameters.

Design of CELLWEIGHT

This weight was computed for respondents from the cell sample using the same procedures as above except there is no first stage weighting adjustment because only one sampling frame is used and within-household selection is not conducted during cell phone interviews. Also, a phone use parameter is *not* included in the second stage weighting. This weight was trimmed at the 5th and 95th percentiles.

Table 1. Weighted and Unweighted Estimates Along with Benchmarks

¹ Blumberg SJ, Luke JV. Wireless substitution: Early release of estimates from the National Health Interview Survey, January–June 2015. National Center for Health Statistics. December 2015. Available from: <http://www.cdc.gov/nchs/nhis.htm>.

	Benchmark	Weighted By WEIGHT	Unweighted
18-24	12.9%	12.8%	9.0%
25-34	17.5%	17.5%	14.8%
35-44	16.7%	16.6%	14.4%
45-54	17.8%	18.0%	16.7%
55-64	16.5%	16.8%	20.3%

Some College	31.5%	31.7%	28.2%
College Graduate	27.8%	28.9%	43.0%
Northeast	18.0%	18.0%	17.7%
Midwest	21.2%	21.4%	21.1%
South	37.3%	37.3%	37.7%
West	23.5%	23.3%	23.5%
White Non-Hispanic	65.1%	65.6%	70.1%
Black Non-Hispanic	11.7%	11.3%	9.1%
Hispanic, Native Born	7.8%	7.8%	7.5%
Hispanic, Foreign Born	7.5%	7.4%	6.7%
Other, Non-Hispanic	7.9%	7.9%	6.7%
1 Lowest Density	19.9%	20.1%	21.3%
2	20.0%	20.0%	22.0%
3	20.1%	20.4%	19.7%
4	20.0%	19.6%	19.0%
5 Highest Density	20.0%	19.9%	18.0%
Landline Only	6.2%	5.1%	3.1%
Dual	43.1%	43.6%	52.8%
Cell Phone Only	50.7%	51.3%	44.1%

VI. DESIGN EFFECT AND MARGIN OF ERROR

Weighting and survey design features that depart from simple random sampling tend to result in an increase in the variance of survey estimates. This increase, known as the design effect or *deff*, should be incorporated into the margin of error, standard errors, and tests of statistical significance. The overall design effect for a survey is commonly approximated as the 1 plus the squared coefficient of variation of

the weights. For this survey, the margin of error (half-width of the 95% confidence interval) incorporating the design effect for full-sample estimates at 50% is ± 2.46 percentage points. Estimates based on subgroups will have larger margins of error. It is important to remember that random sampling error is only one possible source of error in a survey estimate. Other sources, such as question wording and reporting inaccuracy, may contribute additional error. A summary of the weights and their associated design effect is reported in Table 2 below.

Table 2. Design Effect and Effective Sample Size

Weight Variable	Number of cases (n)	Minimum weight	Maximum weight	Design effect	Effective n
WEIGHT	2,009	0.3502	2.1771	1.27	1,587
CELLWEIGHT	1,505	0.4104	1.9984	1.20	1,256

VII. DISPOSITIONS

Table 3 reports the disposition of all sampled telephone numbers dialed for the survey. Abt SRBI calculates three component rates: Response rate, Cooperation rate, and Contact rate²:

- Response rate – the number of complete interviews with reporting units divided by the number of eligible reporting units in the sample.
- Cooperation rate – the proportion of all cases interviewed of all eligible units ever contacted.
- Contact rate – measures the proportion of all cases in which some responsible member of a housing unit was reached by the survey

Overall, the response rate (AAPOR RR3) was 9.8% for the landline sample and 8.9% for the cell sample.

Table 3. Final Dispositions and Rates, by Sample

		Landline Sample	Cell Sample
Interview (Category 1)			
Complete	1.000	504	1,505

**PEW RESEARCH CENTER
DECEMBER 2015 POLITICAL SURVEY
FINAL QUESTIONNAIRE
December 8, 2015**

N=1,500 interviews of adults 18+ (525 landline, 975 cell phone) in English and Spanish.

Form 1/Form 2: each a random half sample

50 states (include Alaska and Hawaii)

Field Period: Dec. 8-13, 2015

Pretest: Monday, Dec. 7, 2015

LANDLINE INTRO:

Hello, I am _____ calling on behalf of the Pew Research Center. We are conducting a telephone opinion survey about some important issues facing this country today. I'd like to ask a few questions of the **[RANDOMIZE: "YOUNGEST MALE, 18 years of age or older, who is now at home" AND "YOUNGEST FEMALE, 18 years of age or older, who is now at home?"]** **[IF NO MALE/FEMALE, ASK: May I please speak with the YOUNGEST FEMALE/MALE, 18 years of age or older, who is now at home?]** **GO TO MAIN INTERVIEW**

RANDOMLY ASSIGN 50% OF CELL PHONE SAMPLE TO OFFER2=1 AND 50% FOR OFFER2=2.

ASK IF CELL SAMPLE AND OFFER2=1 (CELL PHONE INTRO):

Hello, I am _____ calling on behalf of the Pew Research Center. We are conducting a telephone opinion survey about some important issues facing this country today. I know I am calling you on a cell phone. If you would like to be reimbursed for your cell phone minutes, we will pay all eligible respondents \$5 for participating in this survey. This is not a sales call. **[IF R SAYS DRIVING/UNABLE TO TAKE CALL; Thank you. We will try you another time...]**.

ASK IF CELL SAMPLE AND OFFER2=2 (CELL PHONE INTRO):

Hello, I am _____ calling on behalf of the Pew Research Center. We are conducting a telephone opinion survey about some important issues facing this country today. I know I am calling you on a cell phone. We would like to offer you \$5 for completing this survey as a token of our appreciation. This is not a sales call. **[IF R SAYS DRIVING/UNABLE TO TAKE CALL; Thank you. We will try you another time...]**.

VOICE MAIL MESSAGE (LEAVE ONLY ONCE -- THE FIRST TIME A CALL GOES TO VOICEMAIL):

I am calling on behalf of the Pew Research Center. We are conducting a national opinion survey of cell phone users. This is NOT a sales call. We will try to reach you again.

SCREENING INTERVIEW:

- S1. Are you under 18 years old, OR are you 18 or older?
- 1 Under 18
 - 2 18 or older
 - 9 Don't know/Refused

IF S1=2, CONTINUE WITH MAIN INTERVIEW

IF S1=1,9 THANK AND TERMINATE: This survey is limited to adults age 18 and over. I won't take any more of your time...

READ TO ALL CELL PHONE

INTRODUCTION TO MAIN INTERVIEW: If you are now driving a car or doing any activity requiring your full attention, I need to call you back later. The first question is...

INTERVIEWER:

IF R SAYS IT IS NOT A GOOD TIME, TRY TO ARRANGE A TIME TO CALL BACK. OFFER THE TOLL-FREE CALL-IN NUMBER THEY CAN USE TO COMPLETE THE SURVEY BEFORE ENDING THE CONVERSATION.

[PROGRAMMER NOTE: PLEASE INCLUDE THE INTRODUCTION RANDOMIZATION VARIABLES IN THE ALL CONTACTS FILES. WE WOULD LIKE TO BE ABLE TO RUN RESPONSE RATES

SEPARATELY FOR EACH VERSION OF THE INTRODUCTION FOR THE LANDLINE AND CELL FRAMES SEPARATELY. PLEASE RANDOMIZE INTRO LANGUAGE WITH ONE TREATMENT PER PHONE NUMBER NOT PER CALL.]

RANDOMIZE Q.1 AND Q.2

ASK ALL:

Q.1 Do you approve or disapprove of the way Barack Obama is handling his job as President? **[IF DK ENTER AS DK. IF DEPENDS PROBE ONCE WITH: Overall do you approve or disapprove of the way Barack Obama is handling his job as President? IF STILL DEPENDS ENTER AS DK]**

- 1 Approve
- 2 Disapprove
- 9 Don't know/Refused **(VOL.)**

RANDOMIZE Q.1 AND Q.2

ASK ALL:

Q.2 All in all, are you satisfied or dissatisfied with the way things are going in this country today?

- 1 Satisfied
- 2 Dissatisfied
- 9 Don't know/Refused **(VOL.)**

NO QUESTIONS 3-6

ASK FORM 1 ONLY:

Q.7 What do you think is the most important problem facing the country today **[RECORD VERBATIM RESPONSE. PROBE FOR CLARITY – DO NOT PROBE FOR ADDITIONAL MENTIONS. IF MORE THAN ONE MENTION, RECORD IN ORDER OF MENTION]?**

- 1 Answer given – **RECORD UP TO THREE RESPONSES**
- 8 None/No problem
- 9 Don't know/No answer

NO QUESTIONS 8-10

ASK ALL:

Q.11 Next, please tell me whether you are satisfied or dissatisfied, on the whole, with the following aspects of your life: (First/Next) **[READ AND RANDOMIZE] [IF NECESSARY: Are you satisfied or dissatisfied?]**

- 5 CONFIRM ZIP from above
- 9 (VOL.) Respondent does not want the money

ASK IF CELL PHONE SAMPLE AND OFFER2=2:

MONEY2TOKEN That's the end of the interview. If you would like us to send you \$5 as a token of our appreciation for completing the survey, I will need your full name and a mailing address where we can send you the money? [INTERVIEWER NOTE: If R does not want to give full name, explain we only need it so we can send the \$5 to them personally.]

- 1 [ENTER FULL NAME] – INTERVIEWER: PLEASE VERIFY SPELLING
- 2 [ENTER MAILING ADDRESS]
- 3 [City]
- 4 [State]
- 5 CONFIRM ZIP from above
- 9 (VOL.) Respondent does not want the money

ASK ALL:

Thank you very much for your time. This survey is being conducted by the Pew Research Center, which will be issuing a report on the results of this survey on their website, pewresearch dot ORG, in the coming weeks.

THANK YOU again for your help! Have a nice day/evening.

I HEREBY ATTEST THAT THIS IS A TRUE AND HONEST INTERVIEW.

INTERVIEWER GENDER:

ISEX

- 1 Male
- 2 Female

INTERVIEWER RACE:

IHISP1 Are you, yourself, of Hispanic origin or descent, such as Mexican, Puerto Rican, Cuban, or some other Spanish background?

- 1 Yes
- 2 No
- 9 Don't know/Refused (VOL.)

IRACE1 Which of the following describes your race? You can select as many as apply.

[READ LIST. RECORD UP TO FOUR RESPONSES IN ORDER MENTIONED]

- 1 White
- 2 Black or African-American
- 3 Asian or Asian-American
- 4 Or some other race
- 9 [VOL. DO NOT READ] Don't know/Refused

[PLEASE MAKE THE FOLLOWING TEXT AVAILABLE TO INTERVIEWERS ANYTIME A RESPONDENT ASKS ABOUT THE NATURE OF THE PEW RESEARCH CENTER] The Pew Research Center is an independent nonpartisan public opinion research organization that studies attitudes

toward politics, the press and issues facing the nation. The Center has no connection to the government, political parties, or any campaigns. Reports about its surveys are made available free of charge on their website [pewresearch dot ORG](http://pewresearch.org).
