USAPNORC2016-0409

Country: United States
Title: Associated Press – NORC Center for Public Affairs
Research Poll: Long-Term Care in America:
Expectations and Preferences for Care and
Caregiving
Survey organization: The Associated Press-NORC Center for Public
Affairs Research
Sponsor: The SCAN Foundation and NORC at the
University of Chicago
Field dates: February 18-April 9, 2016
Sample: National adult ages 40 and over, including
oversamples of Californians and Hispanics
Sample size: 1,698
Sample note: None
Interview method: Telephone (both landline and cellular)
Weight location: Columns 6-13 (xxxxxxx) – Varname: FINALWT
No. of records per respondent: One
Usage notes: None

Please note that data provided by the Roper Center for Public Opinion Research may not be disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

Study Methodology

This study, funded by The SCAN Foundation, was conducted by The Associated Press-NORC Center for Public Affairs Research. Interviews were conducted by Interviewing Services of America between the dates of February 18 and April 9, 2016. Staff from NORC at the University of Chicago, The Associated Press, and The SCAN Foundation collaborated on all aspects of the study.

This survey of the 50 states and the District of Columbia was conducted via telephone with 1,698 adults age 40 and older. The sample included 1,117 respondents on landlines and 581 respondents on cell phones. The sample also included an oversample of Californians 40 years and older. The sample includes 526 residents of California age 40 and older. In addition, the sample included an oversample of Hispanics 40 years and older. The sample includes 400 Hispanics age 40 and older.

Respondents on landline phones were selected randomly within households. For households with two eligible adults age 40 and older, one respondent was selected randomly by the computer-assisted telephone interviewing system. For households with three adults or more age 40 and older, the respondent who most recently celebrated a birthday at the time of the call was selected. If the selected respondent was not available at the time of the call, interviewers were trained to set up a time to call back to speak with that respondent. Interviews were conducted in both English and Spanish, depending on respondent preference. All interviews were completed by professional interviewers who were carefully trained on the specific survey for this study.

The random digit dial sample, including the California oversample, was provided by a third-party vendor, Scientific Telephone Samples. The final response rate for the overall sample was 37 percent, based on the American Association of Public Opinion Research Response Rate 3 Method. Additionally, the final response rate for the California sample was 40 percent, and the final response rate for the Hispanic sample was 15 percent.

The sampling frame utilizes the standard dual telephone frames (landline and cell), with an oversample of numbers from the state of California, and a supplemental sample of both landline and cell numbers targeting households with Hispanic adults. The targeted sample was provided by Scientific Telephone Samples and Marketing Systems Group and was pulled from a number of different commercial consumer databases and demographic data.

Sampling weights were calculated to adjust for sample design aspects (such as unequal probabilities of within household selection) and for nonresponse bias arising from differential response rates across

various demographic groups. Poststratification variables included age, sex, race, region, education, and landline/cell phone use. The weighted data, which thus reflect the U.S. population, were used for all analyses. The overall margin of sampling error was ± 3.4 percentage points, adjusted for design effect resulting from the complex sample design. The California sample's margin of sampling error was ± 5.5 percentage points, and the Hispanic sample's margin of sampling error was ± 6.7 percentage points, both also adjusted for design effect resulting from the complex sample design.

The weighted data for the national sample of 1,698 respondents reflects the U.S. population, and were used for all analyses in the “Long-Term Care in America: Expectations and Preferences for Care and Caregiving” report. The overall margin of error was ± 3.4 percentage points, including the design effect resulting from the complex sample design.

The weighted data for the California sample of 526 respondents reflects the California population, and 1,172 respondents reflect the rest of the United States outside of California. The margin of error for the California sample was ± 5.5 percentage points, including the design effect resulting from the complex sample design.

The weighted data for the Hispanic sample of 400 respondents reflects the Hispanic population nationwide, 1,298 respondents reflect the non-Hispanic population in the United States. The margin of error for the Hispanic sample was ± 6.7 percentage points, including the design effect resulting from the complex sample design.

About The Associated Press-NORC Center for Public Affairs Research

The AP-NORC Center for Public Affairs Research taps into the power of social science research and the highest quality journalism to bring key information to people across the nation and throughout the world.

- The Associated Press is the world's essential news organization, bringing fast, unbiased news to all media platforms and formats.
- NORC at the University of Chicago is one of the oldest and most respected, objective social science research institutions in the world.

The two organizations have established The AP-NORC Center to conduct, analyze, and distribute social science research in the public interest on newsworthy topics, and to use the power of journalism to tell the stories that research reveals.

The founding principles of The AP-NORC Center include a mandate to carefully preserve and protect the scientific integrity and objectivity of NORC and the journalistic independence of The Associated Press. All work conducted by The AP-NORC Center conforms to the highest levels of scientific integrity to prevent any real or perceived bias in the research. All of the work of The AP-NORC Center is subject to review by its advisory committee to help ensure it meets these standards. The AP-NORC Center publicizes the results of all studies and makes all datasets and study documentation available to scholars and the public.

About the Long-Term Care Poll

The Associated Press-NORC Center for Public Affairs Research, with funding from The SCAN Foundation, is undertaking a series of major studies on the public's experiences with, and opinions and attitudes about, long-term care in the United States.

Demographic projections show the population age 65 and over nearly doubling by the time the last baby boomers have reached 65. Specifically, while seniors made up only 12 percent of the U.S. population in 2000, they are expected to comprise about 22 percent by 2040, with roughly 82 million Americans over the age of 65. How to plan for and finance high quality long-term care will remain a key policy question for lawmakers in the years to come.

The AP-NORC Center, with funding from the SCAN Foundation, is conducting annual nationally representative surveys of Americans age 40 and older to monitor a series of long-term care issues. Future studies will continue to examine awareness of older Americans' understanding of the long-term care system, their perceptions and misperceptions regarding the likelihood of needing long-term care services and the cost of those services, and their attitudes and behaviors regarding planning for long-term care.

These studies will also generate new data on current and relevant long-term care issues and policies.

To minimize the risk of disclosing respondent privacy, the following actions are taken:

1. Variables #15-16, 112, 116-119, and 121 are collapsed or recoded from original data, making the coding frame of these variables different from the survey questionnaire. Some of them are derived from more than one question, for example, variable #121 INCOME, is derived from questions D20, D21 and D22.

Details of Variables

- “.” Or space: missing, survey non-respondent
- -99: logic skip, respondent is not applicable to a specific question

Total	400	17,541,209	100.00

AGEGRP: Age group			
AGEGRP	Frequency	Weighted Frequency	Percent
(1) 40-54	120	9,870,230	56.27
(2) 55-64	104	3,725,853	21.24
(3) 65-74	89	1,744,803	9.95
(4) 75+	69	1,513,918	8.63
(6666) Confirmed 40+ but did not provide age	18	686,405	3.91
Total	400	17,541,209	100.00

USBORN: Were you born in the United States or in another country?			
USBORN	Frequency	Weighted Frequency	Percent
.	9	472,144	2.69
(1) In the United States	204	8,276,845	47.19
(2) In another country	187	8,792,220	50.12
Total	400	17,541,209	100.00

OTHERLANG: Do you speak a language other than English at home?			
OTHERLANG	Frequency	Weighted Frequency	Percent
.	9	604,889	3.45
(1) Yes	262	11,095,008	63.25
(2) No	129	5,841,312	33.30
Total	400	17,541,209	100.00

EDUCATION: What is the last grade of school you completed?			
EDUCATION	Frequency	Weighted Frequency	Percent
.	15	836,310	4.77
(1) Less than high school graduate	81	3,770,691	21.50
(2) High school graduate	108	6,929,455	39.50
(3) Technical/trade school	15	478,078	2.73
(4) Some college	68	2,215,214	12.63
(5) College graduate [Associates/community college, BA, or BS]	74	2,292,725	13.07
(6) Some graduate school	8	183,426	1.05
(7) Graduate degree [PhD, MD, JD, Master's Degree]	31	835,312	4.76
Total	400	17,541,209	100.00

HISPANIC: Are you of Hispanic, Latino, or Spanish origin?			
HISPANIC	Frequency	Weighted Frequency	Percent
(1) Yes	400	17,541,209	100.00
Total	400	17,541,209	100.00

RACETH: Race/ethnicity			
RACETH	Frequency	Weighted Frequency	Percent
(3) Hispanic	400	17,541,209	100.00
Total	400	17,541,209	100.00

NUMCELL: How many different cell-phone numbers, if any, could I have reached you on for this call?			
NUMCELL	Frequency	Weighted Frequency	Percent
.	23	846,528	4.83
(0) 0	72	2,380,681	13.57
(1) 1	263	13,337,407	76.03
(2) 2 or more	42	976,593	5.57
Total	400	17,541,209	100.00

NUMLAND: How many different landline telephone numbers, if any, are there in your home that I could have reached you on for this call? This includes listed or unlisted numbers. To answer this question, please don't count cell phones or landlines used only for faxes and modems.			
NUMLAND	Frequency	Weighted Frequency	Percent
.	18	645,819	3.68
(0) 0	114	7,473,461	42.61
(1) 1	250	8,767,043	49.98
(2) 2 or more	18	654,886	3.73
Total	400	17,541,209	100.00

INC50K: Does your total household income fall below \$50,000 dollars, or is it \$50,000 or higher?			
INC50K	Frequency	Weighted Frequency	Percent
.	68	2,915,240	16.62
(1) Below \$50,000	203	9,429,016	53.75
(2) \$50,000+	129	5,196,953	29.63
Total	400	17,541,209	100.00

INCOME: And in which group does your total household income fall?			
INCOME	Frequency	Weighted Frequency	Percent
.	93	3,847,321	21.93
(1) Under \$10,000	30	1,475,254	8.41
(2) \$10,000 to under \$20,000	55	2,569,948	14.65
(3) \$20,000 to under \$30,000	36	1,847,033	10.53
(4) \$30,000 to under \$40,000	22	942,645	5.37
(5) \$40,000 to under \$50,000	44	2,123,196	12.10
(6) \$50,000 to under \$75,000	41	1,877,986	10.71
(7) \$75,000 to under \$100,000	28	969,997	5.53
(8) \$100,000 to under \$150,000	25	980,692	5.59
(9) \$150,000 or more	26	907,137	5.17
Total	400	17,541,209	100.00

GENDER: Are you male or female?			
GENDER	Frequency	Weighted Frequency	Percent
.	2	226,940	1.29
(1) Male	160	8,199,878	46.75
(2) Female	238	9,114,391	51.96
Total	400	17,541,209	100.00

CENSUS_REGION: Census region			
CENSUS_REGION	Frequency	Weighted Frequency	Percent
(1) Northeast	56	2,609,833	14.88
(2) Midwest	30	1,383,767	7.89
(3) South	157	6,596,424	37.61
(4) West	157	6,951,185	39.63
Total	400	17,541,209	100.00
